## ANSWER FREQUENCY

The Answer Frequency report illustrates how often students chose a particular answer on an exam. For constructed-response questions, the percentage scoring each point value is displayed. The report also displays the objective each question is measuring. Correct answers for each question are shaded and color coded to indicate the response accuracy.

## DEMOGRAPHIC ANALYSIS

assessTrax contains summarized demographic data that is pre-calculated based on the demographic data provided by your district. You can view specific students not meeting proficiency standards by clicking the button to the left of the desired group and the "students" button at the bottom of the page.

NOTES: 1. For Benchmark Testing, the "PASSED" category includes any student scoring 70% or better.  
2. Students not identified demographically are included in the "ALL STUDENTS" group only.
